Additional visits in the following circumstances:

- When there is no improvement within 14 calendar days of treatment and the treatment is not modified,
- When there is no improvement within 30 calendar days of treatment despite treatment modification,
- If the therapeutic benefit has been reached a plateau or been maximized,
- If the member's condition becomes worse or regresses,
- If the therapeutic goals have been reached,
- If the member has become asymptomatic.

Background

The Association of Chiropractic Colleges defines chiropractic as the field concerned with the preservation and restoration of health, and focuses particular attention on the subluxation. A subluxation is a complex of functional and or pathological articular changes that compromise neural integrity and may influence organ system function and general health.

In pediatric patients, chiropractors work to adjust the spine to stimulate the body's recuperative power to improve the child's health and musculoskeletal problem. Additional studies are needed to evaluate the safety and effectiveness of chiropractic care for children with non-musculoskeletal conditions.

Codes:

Additional Evaluation and Management (E/M) Services:

- Additional E/M services within the same treatment plan may be reported separately using the modifier -25, if the member's condition requires a significant separately identifiable E/M service above and beyond the usual pre and post service work associated with the procedure.
- Supporting documentation may be requested for all E/M codes with a modifier -25.

91740 Manual Therapy Techniques (Mobilization/manipulation, manual lymphatic drainage, manual traction) 1 or more regions, each 15 minutes (adjunctive service)

- 97140 Manual therapy code may not be billed with CMT codes 98940-98942. It is considered an inherent component of the CMT codes and it is not eligible for separate payment when reported with the same date of service.
 - Exception: when 97140 is performed on a separate body region that is unrelated to the CMT code, this procedure may be considered for

separate payment. In this instance, modifier -59 should be appended to 97140 and billed accordingly.

- Appropriate information that identifies the separate body region, unrelated to the CMT code, should be documented in the member’s chart

For a given visit, coverage will be limited to chiropractic services as follows:

- One service with a CMT code 98940-98943,
And
- One of the following adjunctive modality codes:
 - 97012, 97014, 97032, 97035 (CPT code 97140 only used for exception referenced previously)

And

- One service with CPT code 97110 (therapeutic exercise performed to build strength, endurance and flexibility)

Or

- One service with a CMT code 98940-98942 and Two Therapeutics and no adjunctive

Or

- One service with a CMT code 98940-98943 and Two Adjunctive and no therapeutic

Additional covered chiropractic services billing and coding guidelines:

- Network providers are required to have a copy of their adjunctive procedures certificate on file prior to billing.
- Any out-of-network provider billing for adjunctive procedures is required to submit a copy of his/her adjunctive procedures certificate with each claim

Premier Health may request office notes to audit claims data.
