

POLICY AND PROCEDURE

POLICY NUMBER: RX.PA.470

REVISION DATE: N/A
PAGE NUMBER: 1 of 3

POLICY TITLE: Adapalene (0.3% gel and 0.1% cream)

DEPARTMENT: Clinical Pharmacy Services – Utilization Management

ORIGINAL DATE: December 2018

Last P & T Committee Approval Date: December 2018

Product Applicability: mark all applicable products below:

COMMERCIAL	[]HMO	[] PPO	Products: [] Small [] Indiv. [] Large	Exchange: [] Shop [] Indiv.	[x] All
OTHER	[x] Self-f	unded/ASC)		

PURPOSE

The purpose of this policy is to define the prior authorization process for acne medications.

Avita[®], Retin-A[®], Retin-A Micro[®], and generic tretinoin topical products are indicated for the treatment of acne vulgaris. However, other tretinoin products are indicated for facial hyperpigmentation, facial skin roughness, and fine facial wrinkling due to photoaging, which are considered cosmetic in nature.

Differin® (adapalene) is indicated for the treatment of acne vulgaris. It is a synthetic retinoic acid analog and exhibits some retinoic acid-like activities. Therefore, this medication has the potential to be used off-label for the treatment of facial wrinkles.

DEFINITIONS

Acne medication – includes all tretinoin, adapalene, azelaic acid, and tazarotene topical products that are currently covered by the prescription benefit

Adapalene (0.3% gel and 0.1% cream)

POLICY NUMBER: RX.PA.470

REVISION DATE: N/A
PAGE NUMBER: 2 of 3

POLICY

It is the policy of the Health Plan to maintain a prior authorization process that promotes appropriate utilization of specific drugs with potential for misuse or limited indications. This process involves a review using Food and Drug Administration (FDA) criteria to make a determination of Medical Necessity, as defined in CRM.015-Medical Necessity, and approval by the Pharmacy & Therapeutics Committee of the criteria for prior authorization, as described in RX.003-Prior Authorization Process.

Formulary acne medications are subject to the prior authorization process.

PROCEDURE

Initial Authorization Criteria:

Must meet all of the criteria listed under the respective diagnosis:

- Member must have a diagnosis of acne
- Must not be used for cosmetic use (e.g. wrinkles, sun damage, melasma)
- Member must have a history of trial and failure or documented contraindication to a topical tretinoin product

Limitations:

Length of Authorization (if above criteria met)				
Initial Authorization	Up to duration of member's membership with plan			
Reauthorization	N/A			

If the established criteria are not met, the request is referred to a Medical Director for review.
